MD SADID AHAMMED TANAY

Junior Web Developer

ADDRESS	Dhaka Bangladesh	PHONE	1568117448
EMAIL	saadid.0000@gmail.com	LINKS	GitHub, Facebook

01 PROFILE

I am an Android developer with expertise in both front-end and back-end development. Experienced with Firebase for data management and Android Studio for app development. I have contributed to healthcare, telemedicine, rental services, and courier management projects as a front-end developer, using HTML, CSS, and JavaScript. Additionally, I've worked on research in brain tumor and skin cancer detection.

02 EMPLOYMENT HISTORY

Dhaka

Android Development

- Proficient in Android development, managing both front-end and back-end aspects of projects.
- Experienced in using Firebase for data management, implementing real-time database, authentication, and cloud functions.
- Skilled in Android Studio for efficient development, debugging, and deployment of applications.

Front End Development

- Contributed to various projects in healthcare, telemedicine, rental services, and courier management as a front-end developer.
- Proficient in HTML, CSS, and JavaScript, implementing responsive and user-friendly interfaces.

Researcher

- Contributed to multiple academic research projects, focusing on topics such as brain tumor analysis and skin cancer classification.
- Applied technical and analytical skills to support research goals and findings in medical and healthcare fields.
